FOR IMMEDIATE RELEASE

COMPANY'S BUSINESS MODEL INSPIRES NAME CHANGE Health One is now UVANTA Pharmacy

Eastlake, OH (August 31, 2009) – Health One Pharmacy - Eastlake, a local provider of professional pharmacy and consulting services to long term care facilities, announced today that it is changing its name to UVANTA Pharmacy - Eastlake.

As an affiliate of national franchisor UVANTA Healthcare, formerly Health One Management Company, UVANTA Pharmacy – Eastlake is paving the way to providing customer-focused pharmacy services to area long term care facilities. The new name and accompanying tagline, “Pharmacy Services Built Around You”, coincides with the launch of the company’s new strategy to promote its service model that puts health care decisions back into the hands of local health care providers.

“We’re very excited about our new name because it was inspired by the ‘unique advantages’ that we deliver to our customers”, says Eastlake, President of UVANTA Pharmacy. “As an independently owned pharmacy, we offer the combined knowledge and expertise of our local staff and UVANTA Healthcare’s corporate resources, with the strengths of our affiliate network, to deliver personalized care and services to the facilities we serve”.

As a national franchisor, UVANTA is the nation’s first and only company that provides franchise ownership opportunities in the long-term care pharmacy business.

“Since its founding, UVANTA has been dedicated to the belief that health care decisions need to be closer to the patient and that expert knowledge, trust, and collaborative relationships are the driving force in the delivery of quality health care services”, says company founder, Lane Sieman. “UVANTA empowers local independent pharmacy owners with the knowledge and resources to help them provide expert pharmaceutical care and compete with national conglomerates”.

About UVANTA Pharmacy

UVANTA Pharmacy – Eastlake is an independently owned and managed affiliate of UVANTA Healthcare, a national franchisor of institutional pharmacies. Through its eleven affiliated pharmacies, UVANTA Healthcare serves over 15,000 residents in long term care and assisted living facilities, hospice organizations and other post-acute health care providers.
